Deliver a new type of patient experience with EPIC X Pain Therapy

Grow your practice while providing temporary pain relief to your patients

epicX PAIN THERAPY

The proprietary Deep Tissue Handpiece controls parameters spot size and power intensity to ensure an equal diffusion of laser energy over the treatment area for optimal results

With more than 39 million adults, or 22% of American adults experiencing orofacial pain,¹ the EPIC X diode laser is a powerful addition to your practice – helping you deliver a new type of patient experience and generating new revenue for your practice.

In addition to its industry-leading soft-tissue and whitening capabilities, the EPIC X diode laser provides a therapeutic and non-invasive way to treat pain in as little as ten minutes. The EPIC X is indicated for temporary relief of minor muscle and joint pain, allowing you to:

- ✦ Relieve pain and suffering for your patients without prescription drugs
- ✦ Provide treatment in as little as ten minutes
- ✦ Deliver a new type of patient experience
- ✦ Generate new revenue for your practice
- ✦ Increase referrals with technologically advanced care
